## Field Day 2017

*By Sue Robins AF6LJ*

We had a good turnout for Field Day 2017, as usual this Field Day began on Friday over at the storage shed with a group of us loading up the trailer, and Cal's truck along with a member's SUV. After stopping off for lunch at In & Out we proceeded over to the Padre Dam administration building where we began setting up. The site is compact, but not so compact as to limit our operations. The shelter, galley and the military mast with a 6 meter, and tri band beams were set up. Saturday the push was on to get the rest of our Field Day station set up before the event started, we managed with time to spare. We ran as A3 this year and had Pat's (WA6MHZ) latest Ultimate Go Kit for winlink and voice service. We were off to a good start.

Conditions on Saturday afternoon were not so great, contacts were made anyway, including some on 6 meters. As the day wore on we made a steady stream of contacts on 20 and 40 meters, it was also becoming evident that Dave (KD6DW) was not having any luck making digital contacts on any band. The problem was the radio he was using had lost modulation, no transmit audio. He went home and brought back his spare radio and after a few fits and starts was making digital contacts.

The night crew arrived and they were greeted with good night time conditions, working well into the early morning hours before things began to slow down.

I arrived just before 7:00 AM and it was already starting to warm up, the rate at which people were making new contacts was rolling off, in part due to conditions and the number of new contacts we could put in the log. Breakfast was served (sorry for not having any pictures) another great breakfast courtesy of Cal and the ARCEC. I wasn't there for the dinner on Saturday, but I heard it was truly great.

As the day went on; conditions continued their steady decline, and at about 10:00 Am we decided to take down the military mast and the two beam antennas affixed to it. Shortly after 11:00 AM we began to tear down the rest of the station, it was getting hot and as time wore on a couple of us had to seek shelter from the sun and cool off. An hour later we had everything packed up and were ready to head out to the storage shed. Tom (N6JOJ) stayed behind to wait for Mike (KG6DTP) to pick up our tower trailer (Thanks Tom, and Mike). With everything back in the shed, that brings us to the close of another Field day.

A special thanks to everyone who made this Field Day possible, for taking the time to help out, bring your gear and spend the time in fellowship with your fellow club members. Thanks to Virginia contributing pictures for this article. Thanks to everyone for your hard work.

## Club Picnic

**September 16<sup>th</sup> Nancy Jane Park pot luck style lunch club will supply burgers etc.**

**Stay tuned for details.**

## Our Tower Trailer Needs A New Home

The current storage location for the club's antenna tower will not be available very soon. The club is looking for a volunteer willing to store the tower trailer. The new location must be secure, and 24 hour access is highly desired. If anyone wants to volunteer to store the trailer, or, has any suggestions on where to store the antenna trailer, please contact any officer or board member.

## Membership Badges & Pins

All members of the Amateur Radio Club of El Cajon who might wish to obtain a membership badge can contact Dell Awards and place an order with them. They are our current preferred source for these badges, and have our logo and design on file and ready to create a custom badge for members. Current price is \$7.50 per badge and they have indicated that there is normally a 3 business day turnaround time. These are quality badges made by a long established company, so place yours on order soon. They can be reached at the below address and phone number, and be sure to mention you saw this blurb in the Counterpoise newsletter too.

**Dell Awards**  
7949 Broadway  
Lemon Grove, CA 91945  
(619) 469-2100  
Hours: Mon-Fri 9:30am-5:30pm  
Sat 10am-1pm  
Sun - Closed

## Club Pins Now Available:

They have arrived! A limited number of club pins are now here and can be obtained from our Treasurer at most club functions. These are 1" diameter pins with a rubber clutch pin on rear. You can now show the world your support of the Amateur Radio Club of El Cajon, and for the small cost of \$3.00 each too. Get them while they are available.
